The Game Reserve Merlot 2023

THE CAPE CLAWLESS OTTER: The Cape clawless otter (*Anonyx capensis*) is the larger of the two species found on the African continent. Humans are the most significant threat to this species with degraded river systems and overfishing posing a far greater threat than hunting. Fortunately through the diligent restoration of the Vink River which runs through the Rooiberg Breede River Conservancy we've successfully been able to provide a safe habitat for this remarkable creature, encouraging a healthy re-population and providing regular sightings along the river banks.

VARIETY: Merlot

TASTING NOTES: The nose shows aromas of fresh cassis, black plums, violets and a minty character. Succulent berry fruits and plum pudding nuances supported by spice and cedar wood flavours on the palate. A medium structured wine with elegant ripe tannins on the finish.

FOOD SUGGESTIONS: Sublime with steak, hearty casseroles, roast chicken or lamb shanks.
